DRY Goods.—The N. Y. Dady Bulletin of yes-terday, in its weekly review of this week, says:— "The business in foreign fabrics during the past six days has been fair, in view of the condition of the general trade, and is somewhat heavier in the aggregate than that of the preceding week. Jobbers are opening more extensive assortments of heavy fabrics, though the demand for these goods continue light. There is an active demand for velvetoens, and these goods form the leading features of the market, the low prices at which they are placed rendering them very popular."

With reference to domestics, the Bulletin adds:
"Agents continue their revision of prices. The most important changes are the reduction of the Amoskeag and Stark A brown sheetings to 12 kc., and Amoskeag B to 12c. Lewiston and York tieks were also reduced 1 2 2 kc. per yard on different marks. NEW YORK POLITIES.—The Gridly branch of the republican general committee last evening received the report of the committee of twenty-one appointed before the split. The report, after instancing several cases of coalitions with the democratic party, which resulted in a loss to republicanism, recommends that the committee acquiesce with the State committee and make no nominations for city and county officers, but that the republicans support such condidates as they may deem best calculated to secure the success of the republican State, congressional, and legislative officers. HEALTH OF CHIEF JUSTICE CHASE His Recent Illness and Present Con-

A telegram from Newport, R. I., to the New York Tribune, in reference to the recent illness of Chief Justice Chase, says that his health was shattered by his arduous and incessant judicial labors, writing his opinions in important cases reserved from the preceding terms of the Supreme Court of the United States and the Circuit Court of Virginia, which labors were protracted through the warm weather of last June. Towards the latter part of that month he left Washington for an extended through the North-west. On the 16th of August he left Niagara Falls for New York, in company with Miss Chase and Mr. Boswell Riggs, of Washington. and that evening, between 6 and 7 o'clock, shortly after leaving Rochester, the Chief Jus-

I. There, in the enjoyment of that rest which he so much needed, he continued to improve so rapidly that, by the 20th of September, he was able to dictate to his secretary, to walk a mile in the morning, and drive five or ATTACKED BY PARALYSIS, walk a mile in the morning, and drive five or six miles in the afternoon, and was hopeful of preciding over the Supreme Court at the adourned term.

On the 28th of September a dinner party was given at Anthony's, a fishing point on the sea-shore, three miles from Narragansett. The shore, three miles from Narraganestt. The Chief Justice had a good appetite, and indulged rather freely at table, eating, very imprudently, green corn and mushrooms. Almost immediately after dinner he felt unwell, and returned home. For several days after this he was worse than he had been at any time since the first week after his attack. His physician put him on strict diet of beef tea and essence of beef. Under this regimen the health of the Chief Justice began to improve again, and in two weeks he was able to resume his walks and his drives. Now he is better than he has ever been since his first attack. His complete recovery must necessarily be slow, but if he continues to im-prove as he has done during the last week, he will be able, at no very distant day, to resume his duties in the Supreme Court.

AMERICAN EXODUS FROM PARIS.—A London special to the New York Times, dated yesterday, easys:—The first batch of Americans left Paris on the 25th of October, and strived in London to-day. The second American party left on the 25th. After permission was obtained from the Prussians for the departure of the Americans from Paris, Drochu refused to allow them to leave, on the ground that it would demoralize the people of Paris. Mr. Washburne went at once to Favre and declared that he would anspend all diplomatic relations if further obstacles were thrown in the way of their departure. This produced the desired effect, and the Americans were allowed to leave.

ARREST OF PRIZE FIGHTING.—Tom Allen was arrested in St. Louis vectories morning, and Gallagher at Carondelet, six miles below. It is the purpose of the police to keep them in custody for twenty four hours, notwithstanding the atrenuous effects of their friends for their release. The fight, therefore, is off, for the present at least. Tom Allen was released on a writ of habeas corpus yesterday afternoon, and went immediately to the boat lying at the leves, but after waiting some time, and Gallagher not appearing, he went home disgusted, declaring he will never again appear in a prize ring? FAILURE OF THE PEACE NEGOTIA

TIONS. LONDON, Nov. 1 .- [N. Y. Herald special.]-The negotiations for an armistice have probably failed. England's recent movement is regarded as damaging to the negotiations. Burnside's mission was to offer France, on the part of the King of Prussia, a semi-armistice of thirty days or longer, would be allowed to pass freely between Paris and Tours and the departments to arrange the over France and admit a perfectly free election.
The parties were then to return to the semi-armistice of fitteen days or longer to enable the delegates elected to proceed to Paris and deliberate upon the terms of peace.

They were accompanied by several thousand sympathisers with their object, which was to present to the government resolutions asking for a levpe en masse, and the appointment of committees for the departments, to be charged with transleading a popular uprising. Gambetta addressed the deputations, urging that it would be better for Frenchmen if they determined to conquer or die. He said, they determined to conquer or die. He said,
